## **Up Coming Events**

**Color Cruise  
Election of  
Officers**

## **Report from the Commodore**

I recently attended the opening of the island jet express fundraiser this past weekend with lady Sharon, what a great weekend (as best as I remember). Thank you to all who went on the club cruise to Maumee bay and helped me celebrate my 28<sup>th</sup> birthday. We had a great turn out with 18 boats in attendance. This year was the first time in several years we did not have to make "Tent City" on the sidewalks. Thanksgiving dinner was served Saturday night, big thanks to Greg and Becky for arranging the dinner and trip. Also thanks to all who made my "requested" deserts.

Please continue to support the club in their upcoming events, flyers and emails posted. Its members who participate that make Bay View the great club that it is.

I am running for the board this year and would appreciate your continued support. I plan to stay involved with club activities.

Your Commodore,  
Tony Blank  
419-574-2674  
[ronski08@gmail.com](mailto:ronski08@gmail.com)

## **FROM THE FLEETCAPTAINS,**

Greetings fellow members from Greg and Tom.

Its sad to say but the Boating season is winding down. we had a great turn out for the Maumee Bay cruise. Thanks to everyone who attended and helped out with the weekend. Congratulations to Charlie and Pat Gallagher who recieved the BVYC Cruise perfect attendance award. These folks made it to all the cruises through good weather and bad.

The last cruise will be the color cruise on Saturday October 14th. Tom is in charge as I will be attending a wedding at PIB.

Thanks again for a great season! PC Greg and CO fleet Tom

## Report from the Rear Commodore

**Vice Commodore  
Steve Suffety**

Greetings to all you Goblins out there and welcome to October! Now some of you may be thinking about hanging it up for the season, but that's just a bunch of nonsense, October can be an amazing time to be boating. Sunny skies, cool temperatures, great fishing, late season "one and done's" at our sister clubs and, of course, colorful scenery all along the shoreline. Speaking of which, our Color Cruise is October 14<sup>th</sup>. I can already feel the excitement of seeing everyone that morning at BVYC. Heading up to Indian Hills with the fleet and thoroughly getting spoiled with the apple cider and of the fixings. Working our way back to TSC and MRYC for more great hospitality and festivities and then heading over to HVYC to be spoiled once again. There is always a certain excitement in the air on this one. It may have to do with the beautiful colors or the fall festivities or being the last club cruise of the season. Whichever it is, it always leaves a lasting impression; lifetime memories.

We have some great activities coming up. First of all, we have our Reverse Raffle on October 21<sup>st</sup>. Dinner is included which will consist of chicken, a baked potato and corn on the cob. As always, it will be a very exciting evening. You can contact me for tickets. Tickets are \$25.00 each and are also available behind the bar. Next up will be Steve and Lori's 2<sup>nd</sup> Annual BVYC's Halloween Party. The club and ourselves will be decorated. We will have finger food, goodies, and our very own D.J. Ken Casey Campbell! Come on out for a Hollowing Good Time! The part will start at 6:00 p.m. and go until the goblins take us away.

Membership Update: We have just voted in 7 new members. They are as follows: Bill Albring: Bill is a past member at BVYC. His sponsors are Pete Kaiser and Lori Suffety. Bob Buchelt: Bob has a 34' Sea Ray. His sponsors are Alan Ellison and Doug LaLonde: Gary Ruffier: Gary owns Jag Plumbing. He has a 31' Formula. His sponsors are Doug Avery and Doug Lalonde. Trevor Roby: Trevor works at Owens Corning. He has a 31' Sea Ray. He is a member of Toledo Sailing Club. His sponsors are Stacy Slicker and Walt VanDromme. Randal Scherf: Randy is self-employed. He is a member of TYC, River View and the Crews Nest. His sponsors are Doug Berry and Timothy Krell. James Knechtges: Jim works at Impact Products. He currently has a pontoon and is in the process of buying a cruiser. Jim is a member at Indian Hills Boat Club. His sponsors are Damian Pflieghaar and Chris Sackett. Ryan Miller: Ryan works at BGSU. He has a 30' Sea Ray and belongs to the Toledo Sailing Club. His sponsors are Walt VanDromme and Tony Blank. The Membership Committee has also met with and approved the following: Chris Trimmer, Ricky Parker, Dan Petro, Jason Ruffier, and Art Richter.

So there you have it. The Fun Filled Season of Fall is upon us. **We will be waiting for you!!!**

Vice Commodore Steve Suffety / [ssuffety@gmail.com](mailto:ssuffety@gmail.com) / 419-206-9522

## Report from the Rear Commodore

**Rear Commodore  
David Krell**

Wow! September is here and gone already. Where did the summer go? Years are either getting shorter or our crazy schedule is making it go so much faster. We had a glimpse of fall a week ago to tease us that its quickly growing nearer, but this next week looks like summer isn't ready to give in just yet. I'll raise a glass to the possibility of an Indian summer!

On August 26th we had our "Back to School Movie Night Under the Stars" which was moved under the pavilion. Lady Courtney and I may have been shooting for the stars when we planned this event but sometimes it doesn't matter how prepared we THINK we are, in the moment is a totally different situation! For dinner we tried

something new, with build your own personal pizzas on the outdoor grill. There was a learning curve for the first group with cook times, but after a few trials and errors, the pizzas turned out great! We sold 54 pizzas!!! That night we also had an exciting double feature with a shark theme. While dinner cooked the kids watched Shark Tales and after 9pm adults enjoyed the classic Jaws movie. We thought it was a great event, with 15 to 20 people watching the whole movie and numerous people stopping in thought out the film. I heard a lot of positive reviews and interest, so we are going to see if we can get another movie night in before the end of the season. Thank you to Doug B., Ken, Doug L, Ben, Timothy, Jim, Tom, Sue, and Tony.

On September 3rd the Trojan made the trip to Toledo Sailing Club for their Lobsterfest dinner. As always it was an amazing dinner, Courtney and I shared steak and crab legs. Lady Courtney and I made quite the trip to our next stop of the evening, the Rossford Marina, by dingy. It was Courtney's first dingy ride and although the water conditions were good, I know she isn't interested in another one any time soon! A "first" trip with a significant other is always memorable!

We held our chicken paprikash dinner on September 8th. We sold 86 dinners and had the remaining 14 dinners sold at the bar by Sunday afternoon....WOW 100 dinners sold!!! Thank you BVC members and families for your outstanding support. For this dinner Lady Courtney and I were able to sit back while the amazing ladies provided the club with a wonderful dinner. Courtney and I were able to dine with my family as my grandparents, mom, and sisters family stopped by the club.

Thank you to Marcia and Greg for heading up the dinner and the rest of their crew Lola, Ruthann, Carol S, Peggy, Connie, Jill, Carol G, Sue, and Karen with the clean up.

September 9th I attended Detroit Beach Boat Club cocktail party without Courtney who was prepping for our engagement pictures. The party was very elegant, as we were greeted at the door with a glass of champagne. I met up with some of my 2019 class and shared a cocktail or two with them. I am starting to see why people say that running through the chairs helps you to create life long friendships. Thank you to Walt and Michelle for letting me ride up with them to this great cocktail party!

## Report from the Rear Commodore -- Continued

Lady Courtney and I joined the club cruise for the final stop of the year at Maumee Bay. We had great weather this year, no cold weather or wind, like the past few years. The attendance was amazing, but not to be over shadowed by the food. The Fleet Captains served up a Thanksgiving dinner on Saturday night that would hold up to any family dinner. Two turkeys, two types of potatoes, vegetables, stuffing and you can't forget about the desserts... apple, pumpkin, and pecan pies and more. We had 16 or more boats stay overnight. A few more stopped over during the day along with members and family arriving by car. From campfire Jenga to bacon grease, there isn't much more to describe the weekend!

Our upcoming events include:

October 4<sup>th</sup> A ladies Wine & Shopping Event

October 28<sup>th</sup> is our Bay View Halloween Party from 6-12pm. V/C Steve & Lady Lori will be hosting this event. Thank you, Steve and Lori for a needed break from party planning!

We will be working on the details of another wine tasting later in the month, as well as another movie night. Please check the club for flyers and details.

Rear Commodore,  
David Krell  
[419-779-0883](tel:419-779-0883)

## 2018 Nominations for Bridge Officers and Board of Trustees Election will held on October 11, 2017 at 7:30 PM

### Bridge Officers

Commodore:	V/C Steve Suffety
Vice Commodore:	R/C David Krell
Rear Commodore:	Chuck Martin
Recording Secretary:	P/C Scott Kneisel
Financial Secretary:	Debbie Trimmer
Treasurer:	Tricia Dunn

### Board of Trustees

P/C Tony Blank  
Al Bremer  
Gary Eff  
Brian Rogers  
Dave Scardina  
Chuck Shanteau  
Noel Wendt

# October Birthdays

- 01 Randolph Bachman
- 03 Tyler Butler
- 04 Daniel Hannon
- 04 Kevin Kreft
- 08 Colleen Cashman
- 09 Alfred Holiday
- 10 Todd Hoste
- 12 Donald Newman
- 13 Ted Beitelschees

September 27, 2017

Bay View Yacht Club

## **Re: Summary of Changes to Constitution and By-laws of Bay View Yacht Club**

Dear Member,

Rather than do separate changes to the Constitution and By-Laws of the Club (hereafter, the "Constitution"), it was decided by the Board of Trustees that we would try to make most of the changes at one time. This will save the Club time and expense in providing the information to the members. The most recent printed version was done in June of 2016 and it corrected quite a few typographical errors. This proposed version also corrects typographical errors and misspellings. The summary below explains the revisions. The full Constitution & ByLaws, with all revisions yellow-highlighted, is posted on the bulletin board in the Anchor Room.

Article III needs to be revised to describe the type of information which will be contained in the membership roster.

Article V needs amending to provide that except where otherwise provided in the Constitution, all questions that come before the members would be decided by a majority vote. As always, only active members are allowed to vote.

Section E of Article VII provides the *Spouse and Significant Other Membership* paragraph that was under Section 1 (The *Significant Other* portion was approved on 4/12/17). Section E previously contained the *Affiliated Membership* paragraph.

Section F of Article VII was added for the *Affiliated Membership* paragraph that was in Section E.

Section 2 of Article VIII requires amending to specify that as far as the Board of Trustees goes, each year three individuals will be elected and there would be a carryover of three other individuals from the prior year with the seventh member being the Commodore who is elected each year.

Section 3 of Article VIII was added to list the duties of the Trustees and basically requires them to act in good faith and in the best interests of the Club and we also expanded the wording to provide that as long as the Trustee was acting in good faith then it would take clear and convincing evidence to show that a Trustee had breached his or her duty to act in the best interest of the Club. This additional section also provides for the liability of a Trustee in the event that it is shown by clear and convincing evidence in Court that the Trustee acted with a deliberate intent or a reckless regard for the best interest of the Club. This section also provides for the issues that a Trustee can consider in making a decision on behalf of the Club.

Section 4 of Article VIII needs amending to bring the Constitutional Committee into those committees to which the Commodore will appoint one member to such committee and also in this section the duties of the Constitutional Committee were expanded and were listed also in Section 4 of Article VIII.

Section 7 of Article IX eliminates the Entertainment Committee checking account.

Section 8 of Article IX provides that all the authority of the Club would be exercised by the Board of Trustees except where otherwise provided in our Articles of Incorporation, or the Constitution.

Section 3 of Article XII was expanded to explain how the entertainment coupons on the membership card would operate. Article VII Section 1 is changed to provide for besides having a category of spouse we also would include a significant other and make them have the same rights as a spouse has with respect to membership rights of the Club.

Article XVII concerns the amendment of the Constitution which needs expansion to provide that any three active members of the Club or three members of the Constitutional Committee could propose an amendment change to the Constitution and By-laws. In addition, it was provided that moving forward, all amendments would be submitted to the Constitutional Committee for their consideration and that they could make a recommendation and post this on the bulletin board. However, ultimately, the members would have the final vote on accepting or rejecting the amendment. Again I would stress that it would take two-thirds of the active members at the third regular Club meeting in which the proposed amendment is considered for adoption to allow an amendment to proceed.

Article XXI was added to the Constitution and it provides for indemnification of the Trustees and the Officers if they are acting in a reasonable manner on behalf of the Club.

The *Conflict of Interest Policy* is being added to provide for protection to the Club to retain its non-profit organization status with the IRS. What this policy does is it basically says that if a Trustee or an Officer or even a member of a committee, where they are going to enter into a transaction with the Club where it could benefit them more than a regular member, then they have to submit this to the board so that it can make sure that it's a neutral benefit and they are not being given a benefit just because of their status as a trustee, officer or other favored class. The conflict of interest does have a procedure and does allow for the person to make a presentation to the Board or Committee so that it can decide one way or the other if this transaction is a violation of the conflict of interest. Matters like compensation of trustees or officers or business transactions in which they might be involved - these are things that would indicate that possibly a Trustee or Officer or Committee member is being given a break with respect to a financial transaction that a normal member would not have received. It is this break or unfair advantage that is obviously prohibited by the IRS and which we need to guard against if we want to retain our not-for profit status.

This concludes the proposed changes to the Constitution and the By-laws of the Club.

# Harmful Algal Blooms

## What Are Blue-Green Algae?

Cyanobacteria, often called blue-green algae, are bacteria that are naturally found in Ohio lakes, ponds, and slow-moving streams. Although many species of algae do not produce toxins, some species of bluegreen algae can cause Harmful Algal Blooms (HABs). HABs can produce neurotoxins (which affect the nervous system) and hepatotoxins (which affect the liver). These toxins can potentially impact the health of people who come into contact with water where HABs are present in high numbers.

## Why does massive growth of blue-green algae occur?

Under the right water conditions, which usually occur in the warmer months, the number of these blue-green algae can dramatically increase, or "bloom." Some blooms can be visible as thick mats or scum on the surface of the water, while others can be present without visible surface scum. The mats or scum can vary in color and could be bluish-green to red.

It is important to note that not all "blooms" produce toxins. Scientists do not fully understand what causes the same species of algae to trigger toxin production during one bloom and not produce toxin during the next.

Blue-green algae need warm temperatures, sunlight, phosphorus, and nitrogen to reproduce. Phosphorus and nitrogen are commonly found in animal and human waste and in fertilizers. Some common ways for phosphorus and nitrogen to enter lakes and streams are from agricultural and residential lawn runoff and improperly functioning septic systems, and erosion of nutrient-rich soil.

## Can you get sick from exposure to blue-green algae?

Yes, you can get sick from exposure to cyanobacteria toxins. But getting sick will depend on the type of cyanobacteria, the levels in the water and the type of contact you had with this "algae."

## Can the cyanobacteria toxins be released to the outside air and pose a health hazard?

The chemical toxins produced by these blue-green algae do not volatilize (change from a liquid to a gas) and they are not released as vapors to the outside air. However, recreational activities like power boating, water-skiing, jet-skiing and tubing can whip up the surface of the water and create

aerosols – toxin-containing water droplets – that can be inhaled or ingested, potentially resulting in negative health effects. Other activities that have the potential to aerosolize the lake water include using the lake water to irrigate (spray) lawns/gardens and golf courses.

## Are the odors associated with blue-green algae hazardous to my health?

Some of the blue-green algae produce an odorgenerating byproduct, named geosmin. The human nose is extremely sensitive to geosmin and is able to detect it at concentrations at very low levels. These odors are not chemically toxic but do have a very unpleasant smell which can cause sensitive individuals to become nauseated (upset stomach, vomiting) and have headaches.

*Source: ODH*

**For more information, contact the Toledo-Lucas County Health Department  
Division of Community Services at 419-213-4100**

6/18/2014

### How do you come in contact with blue-green algae and HABs?

- Ingestion (drinking) untreated water or incidentally swallowing water during recreational activities that comes from a lake or reservoir with HABs.
- Dermal (skin) contact by swimming and other recreational activities in HAB-contaminated waters.
- Inhaling aerosolized water droplets (misting) from water-related activities such as jet-skiing, power boating, tubing, or water skiing.
- The incidental swallowing or inhalation of aerosolized water droplets when watering lawns, gardens and golf courses with contaminated water.

### What types of health problems can people and pets experience from exposure to HIGH concentrations of HABs?

- **Skin contact:** Contact with the skin may cause rashes, hives, or skin blisters
- **Inhalation of (breathing) water droplets:** Breathing aerosolizing (suspended water droplets-mist) from the lake water-related recreational activities and/or lawn irrigation can cause runny eyes and noses, a sore throat, asthma-like symptoms, or allergic reactions.
- **Swallowing water:** Swallowing HAB contaminated water can cause: immediate severe diarrhea and vomiting, abnormal liver function, abdominal pain, diarrhea and vomiting, weakness, salivation, tingly fingers, numbness, dizziness, difficulties breathing, and death.

### Is it safe to eat fish caught from HAB contaminated water?

Some studies have shown that cyanotoxins can accumulate in fish in waters with high toxin levels. While there have been no confirmed reports of cyanotoxin-related human health effects related to fish consumption, there are few data on cyanotoxins on which to base judgments about health risk. Should you decide to consume fish, you would do so at your own risk, and should remove intestines, fat and skin, consuming only the fillet.

### How to protect yourself, your family, and your pets from exposure to HABs:

- Don't swim, water-ski, or boat in areas where the blooms are occurring – avoid direct contact with the lake water.
- Don't water lawns, gardens, or golf course with water from HAB-impacted lakes or ponds.
- Report unpleasant tastes or smells in your drinking water to your local water utility.
- Follow posted water closures announced by state agencies or local public health authorities.

### How to treat people or animals that have been exposed to HAB toxins:

- If you do come into contact with the HAB – contaminated water, rinse off with clean, fresh water as soon as possible.
- Pets that have been swimming in an area with an algae bloom may ingest significant amounts of toxins by licking their fur after leaving the water. Thoroughly rinse of your pets with clean, fresh water.
- Seek medical treatment ASAP if you think you, your pet, or your livestock might have been poi-

soned by toxic HABs.

- Remove people from the exposure and treat the symptoms.
